

*Now in our 10th year*

## Intruder Alarm System – NatCare

### Setting the System

1. Close all doors and windows.
2. Present User Tag or enter code at the keypad. (starts the continuous exit tone)  
(Leave via the designated exit route and close the final door)
3. The system sets after seven seconds after you close the door and gives a double "beep".
4. **The keypad display shows which Level is set.**

### Unsetting the System

1. Enter through the designated entry door and go to the keypad.
2. As you enter the premises the system starts the entry timer and the keypads give the entry tone.
3. Key in your access code or present user tag.
4. The entry tone stops and the system gives a double "beep".
5. **The system is now unset.**

### Resetting the System

1. Key in your access code and press 'tick'. - The display clears.
2. Key in your access code and press ' X '
3. **You can now use your system as normal**

Should you need to abort an activation please contact our 24Hr National Central Monitoring Services, quoting you unique account number.
